Questions:

- Please describe how you see the use of CCC within the plan of care.
- Please share how the CCC plan of care drives the continuum of care throughout the patients stay.
- How were you educated on CCC and how it relates to the plan of care?
- What do you like most about having the plan of care aligned with the CCC framework?
- Please identify how the plan of care is updated to respond to changes in condition or progress to goals.
- How do you feel about the scope of the terms used – Does they provide the breadth necessary?
